How to teach "Wait":
1. Give wait card to student.
2. Wait 1 second (gradually increase wait time).
3. Take the wait card and give the reinforcer to the student (candy, toy, turn on computer, etc...) with verbal praise.

*Things to remember when teaching "Wait":
1. The adult must control the reinforcer.
2. Start with small increments (e.g., 1 second, 2 seconds...).
3. Don't reward a tantrum.
4. The goal is to teach the student to wait for 30 seconds.
   Additional strategies are used to help the student wait for longer periods.
